# BBI

## SAFETY DATA SHEET

## 1. Identification

Product identifier Liquid Wrench Hydraulic Jack Oil

Other means of identification

SDS number M3312

Part No. M3332, M3312
Tariff code 2710.19.3040
Recommended use Hydraulic Fluid
Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer

Company name Blumenthal Brands Integrated, LLC

Address 600 Radiator Road

Indian Trail, NC 28079

**Telephone** Customer Service (704) 821-7643

Technical (704) 821-7643

Website www.solvwithB.com
E-mail sds@solvwithB.com

Emergency phone number Poison Control (RMPDC) (303) 623-5716

Poison Control (RMPDC) (877) 740-5015

## 2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Reproductive toxicity (fertility, the unborn Category 1A

child)

Environmental hazards Hazardous to the aquatic environment, acute Category 1

hazard

Hazardous to the aquatic environment, Category 1

long-term hazard

OSHA defined hazards Not classified.

Label elements

Signal word Danger

**Hazard statement** May be harmful if swallowed and enters airways. May damage fertility. May damage the unborn

child. Very toxic to aquatic life. Very toxic to aquatic life with long lasting effects.

**Precautionary statement** 

**Prevention** Obtain special instructions before use. Do not handle until all safety precautions have been read

and understood. Avoid release to the environment. Wear protective gloves/protective clothing/eye

protection/face protection.

Response If exposed or concerned: Get medical advice/attention. Collect spillage.

Storage Store locked up.

**Disposal** Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise

classified (HNOC)

None known.

Material name: Liquid Wrench Hydraulic Jack Oil
M3332, M3312 Version #: 02 Revision date: 05-29-2019 Issue date: 05-01-2015

#### Supplemental information

NOTE: This product is a consumer product and is labeled in accordance with the US Consumer Product Safety Commission regulations which take precedence over OSHA Hazard Communication labeling. The container label may not include the OSHA label elements listed in this document. Always carefully review the entire SDS and the product label prior to use in the workplace.

## 3. Composition/information on ingredients

#### **Mixtures**

Chemical name	Common name and synonyms	CAS number	%
Mineral Oil		Mixture	90 - 100
Calcium Alkaryl Sulfonate		Proprietary	< 0.5
Calcium Long-chain Alkylphenate Sulfide		Proprietary	< 0.5
Long-chain Alkenyl Succinimide		Proprietary	< 0.5
Zinc dialkyldithiophosphate		68649-42-3	< 0.5
Other components below reportable	levels		< 1

<sup>\*</sup>Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

## 4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

**Eve contact** Rinse with water. Get medical attention if irritation develops and persists.

Ingestion Call a physician or poison control center immediately. Drink 1 or 2 glasses of water. Do not induce

vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

Most important Direct contact with eyes may cause temporary irritation.

symptoms/effects, acute and delayed

Indication of immediate medical attention and special Provide general supportive measures and treat symptomatically. Keep victim under observation.

Symptoms may be delayed.

treatment needed **General information** 

IF exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

## 5. Fire-fighting measures

Suitable extinguishing media

Unsuitable extinguishing media

Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical

During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions

Move containers from fire area if you can do so without risk.

Specific methods General fire hazards

Use standard firefighting procedures and consider the hazards of other involved materials.

No unusual fire or explosion hazards noted.

#### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

M3332, M3312 Version #: 02 Revision date: 05-29-2019 Issue date: 05-01-2015

## Methods and materials for containment and cleaning up

This material is classified as a water pollutant under the Clean Water Act and should be prevented from contaminating soil or from entering sewage and drainage systems which lead to waterways.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

## **Environmental precautions**

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

## 7. Handling and storage

#### Precautions for safe handling

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid prolonged exposure. Pregnant or breastfeeding women must not handle this product. Should be handled in closed systems, if possible. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Store locked up. Store in tightly closed container. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

## 8. Exposure controls/personal protection

### Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

Components	Туре	Value	
CADMIUM (CAS 7440-43-9)	TWA	0.005 mg/m3

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

1,4-dioxane (CAS 123-91-1) Can be absorbed through the skin.

controls

Appropriate engineering

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

## Individual protection measures, such as personal protective equipment

Eye/face protection Chemical respirator with organic vapor cartridge and full facepiece. Applicable for industrial

settings only.

Skin protection

Wear appropriate chemical resistant gloves. Applicable for industrial settings only. **Hand protection** 

Use of an impervious apron is recommended. Applicable for industrial settings only. Other

Chemical respirator with organic vapor cartridge and full facepiece. Chemical respirator with **Respiratory protection** 

organic vapor cartridge and full facepiece if threshold limits are exceeded. Applicable for industrial

settings only.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

Observe any medical surveillance requirements. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

## 9. Physical and chemical properties

**Appearance** Liquid Clear.

Liquid. Physical state **Form** Liquid. Color Colorless.

Odor Mild Petroleum Not available. **Odor threshold** Not available. Ha Not available. Melting point/freezing point Initial boiling point and boiling Not available.

range

Flash point > 410.0 °F (> 210.0 °C)

**Evaporation rate** Not available. Not applicable. Flammability (solid, gas) Upper/lower flammability or explosive limits

## 10. Stability and reactivity

The product is stable and non-reactive under normal conditions of use, storage and transport. Reactivity

**Chemical stability** Material is stable under normal conditions.

Possibility of hazardous

reactions

No dangerous reaction known under conditions of normal use.

Conditions to avoid Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with

incompatible materials.

Incompatible materials Strong oxidizing agents.

Material name: Liquid Wrench Hydraulic Jack Oil

## 11. Toxicological information

Information on likely routes of exposure

**Inhalation** Prolonged inhalation may be harmful.

Skin contact

No adverse effects due to skin contact are expected.

Eye contact

Direct contact with eyes may cause temporary irritation.

**Ingestion** Expected to be a low ingestion hazard.

Symptoms related to the physical, chemical and toxicological characteristics

Direct contact with eyes may cause temporary irritation.

## Information on toxicological effects

**Acute toxicity** 

Components	Species	Test Results

## Respiratory or skin sensitization

**ACGIH** sensitization

PROPYLENE OXIDE (CAS 75-56-9) Dermal sensitization

Respiratory sensitization Not a respiratory sensitizer.

This product is not expected to cause skin sensitization. Skin sensitization

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are

mutagenic or genotoxic.

Not classifiable as to carcinogenicity to humans. Carcinogenicity

#### IARC Monographs. Overall Evaluation of Carcinogenicity

1,4-dioxane (CAS 123-91-1) 2B Possibly carcinogenic to humans.

CADMIUM (CAS 7440-43-9) 1 Carcinogenic to humans. ETHYLENE OXIDE (CAS 75-21-8) 1 Carcinogenic to humans.

LEAD (CAS 7439-92-1) 2B Possibly carcinogenic to humans. PROPYLENE OXIDE (CAS 75-56-9) 2B Possibly carcinogenic to humans.

## OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

CADMIUM (CAS 7440-43-9) Cancer ETHYLENE OXIDE (CAS 75-21-8) Cancer

## US. National Toxicology Program (NTP) Report on Carcinogens

1,4-dioxane (CAS 123-91-1) Reasonably Anticipated to be a Human Carcinogen.

CADMIUM (CAS 7440-43-9) Known To Be Human Carcinogen. ETHYLENE OXIDE (CAS 75-21-8) Known To Be Human Carcinogen.

Reasonably Anticipated to be a Human Carcinogen. LEAD (CAS 7439-92-1) PROPYLENE OXIDE (CAS 75-56-9) Reasonably Anticipated to be a Human Carcinogen.

May damage fertility. May damage the unborn child. Reproductive toxicity

Specific target organ toxicity -

single exposure

Not classified.

Specific target organ toxicity -

repeated exposure

Not classified.

**Aspiration hazard** Not an aspiration hazard.

**Chronic effects** Prolonged inhalation may be harmful.

## 12. Ecological information

Ecotoxicity	Very toxic to aqu	atic life with long	lasting effects.
-------------	-------------------	---------------------	------------------

Components		Species	Test Results
1,4-dioxane (CAS 123	3-91-1)		
Aquatic			
Fish	LC50	Inland silverside (Menidia beryllina)	6700 mg/l, 96 hours
CADMIUM (CAS 7440	)-43-9)		
Aquatic			
Crustacea	EC50	Water flea (Daphnia magna)	0.0491 mg/l, 48 hours
Fish	LC50	Rainbow trout,donaldson trout (Oncorhynchus mykiss)	0.0024 - 0.0029 mg/l, 96 hours
ETHYLENE OXIDE (C	CAS 75-21-8)		
Aquatic			
Fish	LC50	Fathead minnow (Pimephales promela	s) 73 - 96 mg/l, 96 hours
LEAD (CAS 7439-92-	1)		
Aquatic			
Fish	LC50	Rainbow trout, donaldson trout (Oncorhynchus mykiss)	1.17 mg/l, 96 hours

Persistence and degradability No data is available on the degradability of any ingredients in the mixture.

**Bioaccumulative potential** 

Partition coefficient n-octanol / water (log Kow)

1.4-dioxane -0.27ETHYLENE OXIDE -0.3 PROPYLENE OXIDE 0.03

M3332, M3312 Version #: 02 Revision date: 05-29-2019 Issue date: 05-01-2015

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation

potential, endocrine disruption, global warming potential) are expected from this component.

## 13. Disposal considerations

**Disposal instructions** Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Incinerate the

> material under controlled conditions in an approved incinerator. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international

regulations.

Dispose in accordance with all applicable regulations. Local disposal regulations

D006: Waste Cadmium Hazardous waste code D008: Waste Lead

The waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Waste from residues / unused

products

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see:

Disposal instructions).

Since emptied containers may retain product residue, follow label warnings even after container is Contaminated packaging

emptied. Empty containers should be taken to an approved waste handling site for recycling or

disposal.
